Bill Martin, who had worked on the Nagell thing when he was with Garrison, phoned me about 4 p.m. today to ask for more detail on Nagell, from whom he has just had a note from NYC and about my letter asking him to elicit what he could from Carlos de la Vega on Penabaz and Duarte.

There have been no responses to Carlos' inquiries, and he has made several. He laughs at the story and believes there is no RECE connection with Penabaz-Duarte. I assured Bill to the contrary, asked him to ask Carlos to send me copies of his unanswered letters.

Nagell seems to be angry about the Epstein article in The New Yorker. Bill knows nothing about the recent Nagell developments, though he was still in Jail. He believes his story, also believes he is paranoid. He also has heard from Arthur Greenstine and has asked him for more particulars. I brought him up to date on Nagell.

Bill is returning to Honduras in about a week for about two months.
